

FRIEDBERG SPRICHT...

 english...

Friedberg speaking...

The language and integration project
'Friedberg speaking...' is being launched
as a pilot project in summer 2019.

With informal language get-togethers in local cafés, open to all, it offers the opportunity to meet others and talk to them in a relaxed atmosphere in a variety of languages.

This is particularly interesting for:

- > language pupils and students, native speakers and language enthusiasts
- > migrants who are learning German, who can make contact with Germans
- > tourists looking for contact with local people from Friedberg
- > all those interested in other people and cultures.

And this is how it works...

- > Go to one of the cafés participating, recognisable by the 'Friedberg spricht...' sticker on the door, and look for tables where there are flags.
- > If there isn't any just say in your order that you would like to converse in a given language and ask for the corresponding flag to put on your table to indicate this.
- > The best chance of meeting people on the same mission is always on Fridays and Saturdays but in principle it is possible any time.

Give it a go !

Maybe you'll be lucky first time
or you just have to go
and join someone at their table.
